

Construction Tech CCD Training Info & Form Maklumat & Borang Kursus CCD Teknologi Binaan (Jul-Dec 2017) *Train with the most established private IBS training provider*

Since 2007, we offer **innovative courses and facilitators with hands-on** experience in policy, design, manufacturing, construction and entrepreneurship. **Save Cost, Increase Your Productivity** with our training.

M01/02/03/04/05 – FREE TRAINING ! (Details on next page) IBS Module 01: Introduction to Industrialised Building System (IBS) (Pengenalan Kepada IBS), **IBS Module 02: Modular Coordination (MC) System** (Sistem Koordinasi Modular), **IBS Module 03: IBS Score Manual** (Manual IBS Skor), **IBS Module 04: Design Concept of Precast Conc System** (Konsep Rekabentuk Sistem Konkrit Pratuang) and **IBS Module 05: Project Management** (Pengurusan Projek). An introductory 3-day training on prefab/IBS. Includes benefits/issues, history, CITP 2016-2020, policy/incentives, IBS Score calculation and compulsory usage for government/private projects. Providing hands-on IBS Score calculation and also design concept of precast concrete system factory and site operations. An essential training for developers, government departments, consultants, contractors, manufacturers, transporters/lifters and others with technical involvement in construction.

X01 - IBS Case Studies: Technology Selection, Manufacturing Set-Up and Project Execution (Kajian Kes IBS: Pemilihan Teknologi, Penyediaan Pengeluaran dan Pelaksanaan Projek) Case studies on technology selection/investment, manufacturing set-up and project implementation from a neutral perspective. This unique course will share real case studies and related innovation/business tools. For policy makers, local authorities, government / private clients, investors, consultants, contractors, manufacturers and researchers.

X02 - MS 1064 / Modular Coordination for Economical Design (MS 1064 / Kordinasi Modular Untuk Rekabentuk Ekonomi) Intermediate course on MC with hands-on design session on MS 1064/preferred sizes/MC in achieving economical designs. For government / private clients, consultants, contractors, manufacturers and researchers.

X03 - New Concrete-based Business Opportunities & Ideas (Peluang & Idea Perniagaan-Perniagaan Baru Berasaskan Konkrit) Sharing current trends/innovation in concrete, revisiting fundamentals, opportunities as placing & finishing contractors and ideas on manufacturing. Suitable for investors, contractors, manufacturers, researchers, new graduates/students, SME development agencies, associations, entrepreneurs and others who are interested to venture into new businesses.

X04 - Practical Introduction to Building Information Modelling (BIM) (Pengenalan Praktikal Kepada BIM) Introductory course on BIM for all; covering items from the CIDB BIM Guide and other references. Plus basic hands-on training using provided demo BIM software. Also a good & faster alternative to the traditional CAD training. Bring your own laptop!

X05 - Development of Android & Database Mobile App Part 1 (Pembangunan Aplikasi Mobil Android & Pangkalan Data Bah.1) Produce your own mobile app that provides interoperability between your database and mobiles devices. For better information sharing/deliveries. Programming skills not required. Software and computers are provided.

Our Facilitators

Ir. Shahrul Nizar Shaari An engineer with 20 years of experience in construction tech at manufacturer/contractor and government level. Founder of Innovacia, a MATRADE member and an established research, training and ICT set-up; and brand owner of TiffinBIM, TiffinCAD, Innovacia Mobile and binaTECH – the leading construction tech magazine in Malaysia.

Saiful Adli Abdul Karim Precast concrete design and project execution expert with experience at Global Globe Precast and KUB Precast. Established his own IBS business - NS Prefab Consultancy. Active in various CIDB-lead IBS committees.

Abu Saffian Abu Bakar has 30 years of progressive management work experience. Former Senior Vice President at Agensi Inovasi Malaysia. Prior to AIM, he worked at Iskandar Investment, ACPI and IJM. With vast experience in business development, project mgt, property dev, construction, manufacturing, sales & marketing and quality management systems.

Dr. Sumarni Ismail Architect and specialist in MS1064, MC and heritage buildings. Currently attached with UPM and actively providing research and consultancy services related to heritage buildings and IBS/MC.

Ir. Dr. Kamarul Anuar Mohamad Kamar is an expert in concrete, IBS, project mgt and sustainable construction. Formerly with CREAM, CIDB's R&D arm, and Lafarge, he is currently with the UEM Group.

Hafnizam Mahmud Possessing an architectural background, Nizam is a well-known CAD/BIM specialist with IBS knowledge. His company, TRN, partners Innovacia and provides consultancy, products and training in CAD/BIM.

Mohd Ezazli Anas Co-founder and partner at Innovacia Mobile; providing mobile app development services and training. Runners-up winner of Hong Kong Appsanity Award 2012 with the Distance Estimator mobile app. Available on Google Play under Innovacia Mobile store, among their globally popular apps are Site Report, Phone Tracker and Phone Locator.

Objectives/Benefits of Training

1. Gaining information on **latest and trending** construction technology from an established training provider
2. Sharing of experience among trainees and our subject matter experts (SMEs) – **more than the items in the notes!**
3. **Networking** and creating business opportunities with fellow participants and our entrepreneur SMEs
4. Gaining **CCD/CPD** points
5. Holders of M01/02/03/04/05 certificates are eligible to apply for the **IBS Professional Listing by IBS Centre**
6. **FREE** binaTECH publications and **DISCOUNTS** on software purchase from Innovacia
